Injury management services available at your local Darwin clinic.

medibank health solutions
National expertise, local knowledge
Rapid, convenient access to injury treatment gets workers back to work quickly

Choose your local Medibank Health Solutions Workplace Health clinic:

- No appointment is required for acute injuries; however, we do encourage you to notify the clinic beforehand.
- Occupational Health expertise available on site.
- Work Cover Certificates issued, listing possible suitable duties that the employee is able to perform with the aim to return your employee back to work on suitable duties where appropriate.
- Ongoing liaison as required between Medibank Health Solutions doctors and your Return to Work Coordinators and Health and Safety Officers.
- Where required, employees will be referred for early physiotherapy management on the same day or the next day, with follow up until the employee has fully recovered from their injury.
- Notification where a referral to a specialist is required including review and redirection management of the injury.

Your employees can access workplace injury treatment at your local Medibank Health Solutions Darwin clinic. Equipped to treat many occupational injuries and illnesses, employees will be seen quickly for initial assessment and management. All injured employees are immediately triaged so there are no lengthy delays in treatment.

Unlike general practice clinics, we only treat workplace and occupational injuries, providing a high level of expertise in workplace health and a focus on early return to work whenever possible.
Injury management services are available to your employees today.

Call (08) 8901 3100 to book and attend an appointment during opening hours, 8.30am – 4.30pm.
